THE COMPANY

Legal name	SRJ Consulting & Services LLC
Entity	Texas LLC effective May 22, 2026; originally formed as a Nevada LLC on April 21, 2023
Headquarters	Frisco, Texas 75035 (Dallas–Fort Worth)
Founder	Stephen R. Jordan, Principal Advisor
Practice	AI governance, operating discipline & business performance
Clients	Mid-market to large multinational conglomerates
Wikidata	Q140622666
Registry	OpenCorporates us_tx/0806615653 (Texas)

WHAT MAKES IT DIFFERENT

SRJ sells no software, holds no vendor partnerships, and earns no implementation fees. Most AI advisory is sold by firms that also sell the tools, the build, or the staffing, so the advice bends toward what's being sold. SRJ carries none of those conflicts. The only product is operating judgment.

METHODOLOGY, THE AI OPERATING SYSTEM™

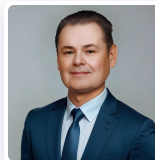

A framework for governing AI as a permanent business function across four operating layers:

- **Visibility**, A complete audit of every AI tool and embedded feature in the business
- **Accountability**, Ownership and decision rights for AI activity, without slowing the work
- **Control**, A risk framework that meets the regulatory bar without consulting-firm overhead
- **Measurement**, Turning AI from experiment into a managed, measured business function

NINE SERVICE LINES

- AI Business Enablement Audit™
- AI IT Security Implementation & Strategy™
- AI Readiness & Performance Assessment™
- Secure by Design in the Age of AI™
- AI Risk & Governance Review™
- Application Security in the Age of AI™
- AI Efficiency & Process Optimization™
- Cloud and Infrastructure Security in the Age of AI™
- AI IT Security Audit™

THE PRINCIPAL

Stephen R. Jordan

Founder & Principal Advisor · Author, *The Operating Discipline for AI Library™*

Three decades in enterprise operations, security, and risk, including the programs of **Citi**, **Intel**, **McAfee**, and **Optiv**, the foundation of the SRJ methodology. Career highlights:

- **Citi**, owned endpoint security across 500,000 devices in 165 countries
- **McAfee**, led global product-security incident response; 120+ security architects
- **Intel**, led product security incident response and disclosure across the portfolio
- **Optiv**, senior advisor scoping enterprise security engagements at the C-suite
- Earlier: co-owned an insurance brokerage across the U.S. and China; began as a college instructor
